UNIQUE

ESTD 1994

We are manufacturer and Exporter of Hand fed Die cutting Machines in Amritsar India, Exporting the machines to USA, UK, Dubai, Kuwait, Oman, Sri Lanka, Kenya, Ethiopia, Doha Qatar, Israel etc. all steel constructions, size varies from 13"x18" Smallest and 71"x127" Biggest so far in the world.

All Machines are running successfully. Also we will make the machines as per customer sizes and specifications.

Pneumatic (Air) Clutch Brakes

UNIQUE Machine is installed with special pneumatic combination Technology of fail safe clutch brake assembly for better protection & safety

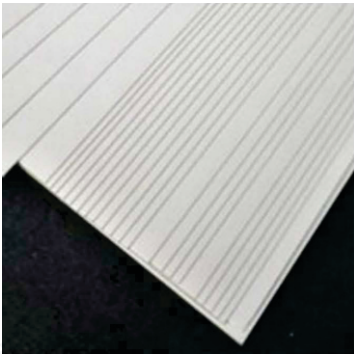

UNIQUE Machine is installed with 2 sets of helical herringbone gears for extra heavy loads

UNIQUE

ESTD 1994

UNIQUE Die Cutting Machine is Suitable to cut all kinds of substance

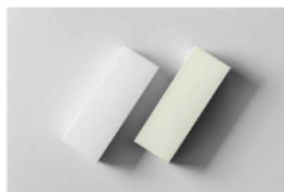

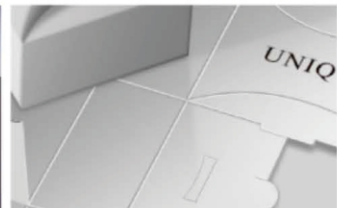

Cardboard

Corrugated Board

Plastic Sheet

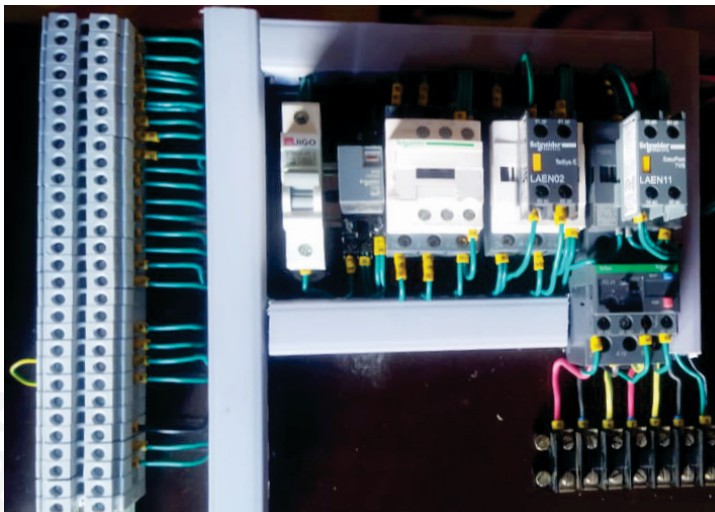

Die Cutting & Creasing

UNIQUE

ESTD 1994

UNIQUE Machines are installed with Schneider/Siemens make control / operation panel & push buttons

Control Panel

Operation Panel

Electrical System

UNIQUE Machine is equipped with automatic Lubrication Pump

UNIQUE Machine is manufactured using high grade bronze metal for longevity

UNIQUE

ESTD 1994

SPECIAL FEATURES OF “UNIQUE” PRODUCTS.

The Main feature of **UNIQUE** Product is that the Main Body and Platen is of **HEAVY DUTY STEEL FABRICATED**

- 1, Heavy duty Rigid Main Frame.
- 2, Heavy duty Platen.
- 3, All shafts are alloy steel i.e. EN-8/9.
- 4, Graded phosphorus bronze bushes for long last of the machines.
- 5, Main Connecting Rods are of TESTED plate Heavy as compared to market usually fitted.
- 6, Main gears are of STEEL and bigger diameter as compared to casting for long life and heavy jobs during continue production.
- 7, Heavy platen shaft for reducing the deflection during cutting on heavy materials.
- 8, Intermediate Gears are of steel to steel with bigger diameter to reduce the load of the motor.
- 9, All the Bearings are of NBC/SKF ISI marked.
- 10, Electric motor will be of SIEMENS / ABB.
- 11, Electric control panel will be of Schneider France and Siemens.
- 12, Machine will be equipped will full safety features as per standard.
- 13, Machine will be paint with special 2K Polyurethane Paint.
- 14, Machine will be provided with Fail Safe Combination of Pneumatic Clutch Brake Assembly as per CE Requirement
- 15, The Strength of the Machine is Double than the Casting Machine.
- 16, The Electrical components are used “CE” Marked as pe europeon standard.

The Guarantee of the Machine in Breakage of BODY and PLATEN is of 5 Years .
